EXPERIENCE

Frontend Developer   August 2022 – Present
Depronto Infotech   *Mumbai, Maharashtra (Remote)*

- Developed and maintained responsive web applications using React.js, JavaScript, HTML, CSS and MobX, optimizing page load times by 25% to enhance user experience.
- Led multiple web development projects from ideation to deployment, ensuring the delivery of high-quality features on schedule while collaborating closely with cross-functional teams and stakeholders.
- Coordinated and collaborated with cross-functional teams to meet project deadlines, achieving a 95% on-time delivery rate for client milestones.
- Integrated design tools like Figma into the development process, ensuring seamless transitions from design to implementation.
- Contributed to codebase maintenance and feature development using React.js, Material UI, ANTD, MobX, JavaScript, TypeScript, JSX, Git, HTML, and CSS, adhering to best practices and ensuring scalability and maintainability.

Frontend Developer - Intern   Jan 2022 – Apr 2022
HemansAI   *Indore, Madhya Pradesh*

- Completed a front-end development internship, gaining hands-on experience with web technologies including HTML, CSS, JavaScript, React.js, and MobX.
- Contributed to various web development projects, including shadow projects focused on website redesigns and implementing new features to enhance user experience.
- Collaborated directly with the CEO on multiple initiatives, gathering feedback and ensuring that web applications aligned with the company's vision and objectives.
- Enhanced existing features and improved user interfaces based on user feedback and project requirements, contributing to the overall success of key projects.

PROJECTS

Crypto Dashboard | *React.js, Framer Motion, Chart.js, Axios*   Apr 2023

- Developed a sleek cryptocurrency tracker dashboard using React.js, Framer Motion, Chart.js, and Axios, allowing users to track live cryptocurrency prices, view interactive charts, and compare data from the CoinGecko API.
- Implemented a user-friendly interface that simplifies cryptocurrency data analysis, providing real-time updates and visually engaging charts for better decision-making.
- Optimized the dashboard for fast performance, offering a reliable tool for users to stay informed in the ever-changing world of cryptocurrencies.

Project Tracker | *React.js, MobX, React-router-dom, Material UI, Framer Motion*   June 2023

- Developed a personal portfolio and project tracker using React.js, MobX, React-router-dom, Material UI, MUI Icons, and Framer Motion, allowing users to view all the projects I have worked on.
- Created a sleek and interactive user interface for showcasing previous projects with quick previews, enabling easy navigation to deployed versions or source repositories for further exploration.
- Designed the tracker with a focus on usability and visual appeal, offering an engaging way for users to browse and discover my past work and contributions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS
Frameworks: React.js, Material UI, ANTD, MobX
Tech Stacks and other deployments tools: Git/GitHub, Figma, Adobe Xd, VS Code, Jira
IT Constructs: JSX

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya   Indore, Madhya Pradesh
Bachelor of Computer Science Engineering, CGPA: 7.8   *June 2018 – June 2022*
